

The Lightning App

An app is a collection of items that work together to serve a particular function. In Lightning Experience Lightning apps give your users access to sets of objects, tabs, and other items all in one convenient bundle in the navigation bar. Lightning apps let you brand your apps with a custom color and logo. You can even include a utility bar and Lightning page tabs in your Lightning app. Members of your org can work more efficiently by easily switching between apps.

Create the Lightning App

1. Go to setup page >> search “**app manager**” in quick find >> **select “app manager”** >> **click on New lightning App.**

The screenshot displays the Salesforce Lightning Experience App Manager setup page. The page title is "Lightning Experience App Manager". On the left, there is a sidebar with a search bar containing "app m" and a list of items including "App Manager" and "App Menu". The main content area shows a table with 22 items, sorted by App Name. The table columns are: App Name, Developer Name, Description, Last Modified Date, App Type, and Visibility. The items listed are:

App Name	Developer Name	Description	Last Modified Date	App Type	Visibility
1 All Tabs	AllTabSet		22/08/2023, 10:46 am	Classic	
2 Analytics Studio	Insights	Build CRM Analytics dashboards and apps	22/08/2023, 10:46 am	Classic	✓
