Requirement Analysis (Functional, Operational, Technical) / Flow Charts

In this activity you are expected to prepare the functional requirement analysis document by referring from the template.

Functional Requirement Analysis Document Template:

Introduction

1.1 Purpose

1.2 Scope

1.3 Objectives

General Description

2.1 Product Perspective

2.2 Product Functions

2.3 User Characteristics

2.4 General Constraints

Functional Requirements

3.1 Requirement 1

3.1.1 Description

3.1.2 Input

3.1.3 Processing

3.1.4 Output

3.1.5 Non-functional Requirements

3.2 Requirement 2

3.2.1 Description

3.2.2 Input

3.2.3 Processing

3.2.4 Output

3.2.5 Non-functional Requirements

[Add more sections as necessary]

Operational Requirements

4.1 Expected Use

4.2 User Training

4.3 Maintenance

Technical Requirements

5.1 Software Interface

5.2 Hardware Interface

5.3 Communications Interface

5.4 Security Requirements

5.5 Adaptability Requirements

Flow Charts

6.1 Process Flow Chart 1

6.2 Process Flow Chart 2

[Add more flow charts as necessary]

Additional Requirements

7.1 Legal Requirements

7.2 Documentation and Help

7.3 Performance Requirements

[Add more sections as necessary]

Conclusion

Please use this template as a guideline to create your functional requirement analysis document for the property management application using Salesforce. Tailor the content and sections based on the specific needs and requirements of the application you are working on.
